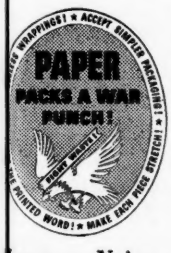
"Never mind wrapping it—

our Army needs the paper!"

Right, Mrs. Jones! Practically every one of the 700,000 different items convoyed to our boys is wrapped for protection in paper or paperboard or both!

The war need for paper grows daily. Current paper production cannot meet this steadily mounting demand unless you and every other man and woman join Mrs. Jones *in using less paper* at the store, in your office, at home.



This and other magazines, although using only 5 per cent of the paper supply, are saving 450 million pounds of paper this year—to release it for vital war needs.

This advertisement, contributed to the war effort by this magazine, was prepared by the War Advertising Council in cooperation with the War Production Board and the Office of War Information.
